

# Robin Dunn

Carnegie Mellon University • Pittsburgh, PA 15213 • [dunn.robin.m@gmail.com](mailto:dunn.robin.m@gmail.com) • [robinmdunn.github.io](https://robinmdunn.github.io)

---

## Education

### Carnegie Mellon University

#### PhD in Statistics

PITTSBURGH, PA

Aug 2016 – present

Thesis topic: *Advances in Nonasymptotic and Nonparametric Inference*.

Co-advisors: Larry Wasserman, Aaditya Ramdas.

#### Master of Science in Statistics

Aug 2016 – May 2017

### Kenyon College

GAMBIER, OH

#### Bachelor of Arts in Mathematics, Scientific Computing Concentration

Aug 2012 – May 2016

Valedictorian, Highest Honors in Mathematics, Distinction on Mathematics Senior Exercise.

Phi Beta Kappa. GPA: 4.0.

---

## Experience

### Carnegie Mellon University Department of Statistics & Data Science

PITTSBURGH, PA

#### Research Assistant

Aug 2016 – present

#### Research Collaborator for CMU / Novartis Partnership

Feb 2020 – Sep 2020

Collaborated on analysis of a personalized medicine cancer treatment, through a [partnership](#) between Novartis Pharmaceuticals and Carnegie Mellon's Department of Statistics & Data Science. Developed multistate models for patient progression from pre-treatment through follow-up. Consulted with physicians, statisticians, and biometricians. Presented on twice weekly international conference calls.

#### Instructor for 36-315: Statistical Graphics and Visualization

May 2019 – June 2019

Developed course materials, presented lectures, led labs, and held office hours.

Topics: choosing and interpreting graphics, mastering ggplot, interactive graphics with shiny.

#### Head Teaching Assistant for 36-462/662: Data Mining

Aug 2019 – Dec 2019

#### Head Teaching Assistant for 36-402/608: Advanced Methods for Data Analysis

Jan 2019 – May 2019

#### Head Teaching Assistant for 36-315: Statistical Graphics and Visualization

Aug 2018 – Dec 2018

Held office hours, led lab sections, graded assignments, coordinated course logistics, filled in for lecture.

#### Research Mentor for Summer Undergraduate Research Experience in Statistics

May 2018 – July 2018

Student advisees: Alexander Asemota, Sophia Hecht, Daniel Rodriguez

Faculty supervisors: Anjali Mazumder, Chad Schafer

Mentored students to identify research directions on data science for justice. Provided guidance on R tools (ggplot, data.table, shapefiles) and statistical models (generalized linear models, random forests, spatiotemporal ETAS models). Students presented their final work at a departmental seminar and at the poster session of the American Statistical Association's 2018 StatFest.

### Novartis Pharmaceuticals Corporation

EAST HANOVER, NJ

#### Biostatistics PhD Intern

May 2017 – Aug 2017

Advisors: Peter Mesenbrink (primary), David James, David Ohlssen

Analyzed data from the Osteoarthritis Initiative's ten-year longitudinal database. Constructed predictive models for knee replacements, explored missing data methods, and applied joint models for longitudinal and time-to-event data. Presented on several international conference calls.

### Kenyon College Office of Institutional Research

GAMBIER, OH

#### Institutional Research Student Consultant

Aug 2013 – June 2016

Analyzed survey data in R, wrote reports on statistical findings, hosted focus groups, and interpreted data to support professors applying for grants. Created a Tableau [data visualization](#) of majors and careers of Kenyon graduates.

---

\*Equal contributions. R package: [TCpredictionbands](#).

---

## Honors and Awards

### PhD Teaching Assistant of the Year

May 2019

*Carnegie Mellon University Department of Statistics & Data Science*

Awarded for head TA performance in 36-402/608: Advanced Methods for Data Analysis (Spring 2019).

### Gertrude M. Cox Scholarship

Apr 2016

*ASA Committee on Women in Statistics and Caucus for Women in Statistics*

Awarded yearly to one woman in or entering the early stages of graduate statistical training (MS or PhD) and to one woman in a more advanced stage of training.

### Reginald B. Allen Prize

Apr 2016

*Kenyon College Department of Mathematics & Statistics*

Awarded each year to a student whom the professors of the Department of Mathematics decide has done the most outstanding work in mathematics.

### NSF Graduate Research Fellowship

Mar 2016

*National Science Foundation*

Recognizes and supports outstanding graduate students in NSF-supported science, technology, engineering, and mathematics disciplines who are pursuing research-based master's and doctoral degrees.

### Goldwater Scholar

Mar 2015

*Barry Goldwater Scholarship and Excellence in Education Foundation*

National award for undergraduate students interested in pursuing scientific research careers.

### CAUSE Undergraduate Statistics Class Project Competition, third place

Jul 2013

*Consortium for the Advancement of Undergraduate Statistics Education*

Won third place in a national competition for a project titled "Studies on Water Components" that used bootstrapping statistical methodology to analyze water sampling data.

---

## Service

Peer reviewer

2019 – present

ICML climate change workshop (2021), NeurIPS climate change workshop (2019, 2020),  
*Journal of Machine Learning Research* (2019)

PhD student mentor

2018, 2020

Conference volunteer

2018 – 2020

Women in Data Science (WiDS) Pittsburgh @ CMU conference volunteer

---
